

Greetings and welcome to the Butoh Clown Course 2024!

I'm Bea, and I will be with Loco Brusca in this BUTOH-CLOWN IN NATURE experience. I will support the administrative management processes, logistics, questions, infrastructure, registration... and other things necessary to the organization of the BUTOH-CLOWN residence.

In this dossier you will find general considerations, prices, payment methods and discounts, information about the place, accommodation...

But also, our commitment in offering you this immersive training, which is to provide you with an environment that encourages your artistic and personal growth. A space for continuous learning, working to make each interaction with you meaningful and rewarding.

If at any time you need guidance or have any questions, do not hesitate to contact us. This course is yours as much as it is ours, and we are delighted to have you.

Best regards,
Bea

Before the Course

- If you have any concerns or special needs, please let us know well in advance so that we can offer you the necessary support.
- Choose comfortable clothing that allows you to move freely and adapt to both indoor and outdoor activities. It is very important that you wear appropriate footwear and choose “work” clothes that can get damaged.
- Plan your trip to the Marina Alta in advance, considering accommodation and transportation, so that you can arrive to the experience without worries.

Other options:

- Please, if you come with your van, let us know in advance, so that we can find a place where you can be, quiet and comfortable and make sure that you are going to correctly manage your waste and the impact generated in the place where you park.
- We have contacts from neighbors who offer rooms in their homes, areas to camp or park, for a conscious contribution. If you prefer this type of accommodation, we will put you in contact with them.

The Marina Alta, with its climate, nature and elements, will be an essential component of your experience, offering a space of freedom and self-exploration.
